SUMMARY

- Seeking full stack internship with expertise in HTML, CSS, JavaScript, Node.js, Express.js, and SQL.
- Proficient in Data Structures and Algorithms with a solid foundation.
- Committed to resolving challenges efficiently with a focus on effective problem-solving.
- Excited to be part of a team, contributing collaboratively to achieve goals.
- Interested in utilizing technical expertise and problem-solving skills to tackle real-world projects.

EDUCATION

University Institute of Technology, Burdwan University   **2021 – Present**
*B.E - Information Technology - **CGPA - 8.08***   *Burdwan, West Bengal*

D.A.V Public School ,Itki Road ,Hehal   **2021**
*Senior School Examination, CBSE (12th) - **Percentage - 77.5***   *Ranchi ,Jharkhand*

D.A.V Public School ,Itki Road ,Hehal   **2019**
*Secondary School Examination, CBSE(10th) - **Percentage - 86.83***   *Ranchi ,Jharkhand*

TECHNICAL SKILLS

Programming Language: C, Java, Python, JavaScript (including Embedded JavaScript), SQL
Technologies/Frameworks: HTML5, CSS3, MongoDB, Express, React, NodeJS, Bootstrap, Tailwind
Developer Tools: VS Code, IntelliJ, Canva
Problem Solving: Data Structures and Algorithms

COURSEWORK / SKILLS

- DSA
- Oops Concepts
- Software Engineering
- Operating Systems
- Computer Networks
- DBMS

PROJECTS

Weather app ⧉ | :HTML, CSS, Javascript. IDE - VS Code

- The app will fetch weather data and display it to the user.
- The interface should be intuitive and visually appealing, with weather information displayed in a clear and organized manner.
- The user will be able to input the location of which they want to know the temperature.

Speed typing ⧉ | HTML, CSS, Javascript . IDE - VS Code

- The game provides users with an interactive platform to test and improve their typing speed and accuracy.
- The game features a clean and intuitive interface designed using HTML and CSS to ensure ease of use for players.
- A random set of words is displayed on the screen for the user to type. This text generation is implemented using JavaScript.

Math bot ⧉ | HTML, CSS, Javascript.

- It is an interactive web application designed to assist users with mathematical calculations and problem-solving.
- It provides a fully functional calculator that supports basic arithmetic operations such as addition, subtraction, multiplication, and division. Users can input expressions via the keyboard for convenience.
- It aims to provide users with a comprehensive platform for performing mathematical computations, solving problems, and learning new concepts.

ACHIVEMENTS

∗ Mastered over **100+** data structures and algorithms questions on **LeetCode**, showcasing exceptional problem-solving skills. ⧉
∗ -Achieved proficiency in solving **100+** challenges on Geeks for Geeks. ⧉
